The past week up to Tuesday has been more like late June than March weather. Seldom has this month brought such hot days as it has this year.

The white teachers of Fayette county met in their regular monthly meeting last Saturday at the high school building in this city with a good attendance and a splendid program, rendered by members of the association.

WANTED—Salesman for 5,000 mile guaranteed tires. Salary \$100.00 weekly with extra commissions. Cowan Tire & Rubber Co. Box 784, Chicago, Ill.

Miss Iver Hobson left Thursday of this week for Washington, D. C. where she will spend several weeks with her brother, Col. Wm. H. Hobson, who is Commandant at Georgetown University, and with her two sisters, Misses Hettie and Pauline, who are employed by the War Risk Insurance Bureau.

FOR SALE—Mosby Prolific seed corn. Carefully selected hand shelled \$2.25 per bushel. C. F. Akin, Somerville, R. 2. 4-15

A trip thru any section of the county right now will reveal to a close observer the great difference in the amount of spring work already done on the farm worked by its owner and the one worked by average tenants. Of course there are a few that keep the work up like the owner does when he lives on his land, but they are scattering. We were impressed Tuesday by noting these differences as we went along one of the principal roads out of town for ten miles or more.

HOGS WANTED—Feeders, shippers etc. W. S. Shinault, Somerville. 4-1

All parties owing me for Ginning are hereby requested to pay same at once or I will be compelled to place same in hands of an officer for collection. L. N. Carter. 3-25

A. H. Harvey who has ten acres of alfalfa and others having a smaller acreage report that the growth this season is the best they have ever seen and with two more weeks of warm weather it will be most ready to cut and promises a big yield. Think of cutting a crop of hay right at the end of winter and when the working season is about beginning. The very time money and hay are both scarcest and the hay is actually most needed. There should be an alfalfa patch on every farm.

Half & Half cotton seed One year from originator. Average turnout entire crop 45 per cent. \$5 per 100 pounds. T. A. Moorman. 4-1

Several conditions seem to be working to retard field work and planting this season, while the weather is unusually warm. Frequent rains have kept the soil rather wet to plow and this has hindered. Many farmers, large and small, have been unable to make arrangements for supplies to make the crop on, and are not hurrying to start their crops for this reason. There is mighty little money in the country to pay wage hands and this is holding back things somewhat. And all combined are serving to make spring work go rather slower than usual, tho the weather has been warmer and more favorable to the growth of stuff, once it was planted.

Tomato plants now ready for transplanting for who want them. Home grown plants. The Falcon.

T. A. Moorman and W. T. Loggins attended the Pinecrest bred sow sale Wednesday at Charleston, Mississippi, and bought one of the best bred Duroc sows ever brought to Fayette county. She is a daughter of Orion Cherry King Jr., Grand Champion at the National Swine Show, the biggest show in America, and is the grand-daughter and great-grand daughter of Orion Cherry King on her dam's side, being a most intensely bred Orion Cherry King sow, with a Colonel outcross in her dam's third generation. And best of all she is bred to Scissors, without doubt the greatest living Duroc boar in the world today, and will farrow a Scissors litter in late spring. They have also bought Highmoor Cherry King, a grandson of Orion Cherry King on his dam's side and of De-fender on his sire's side both Defender and Orion Cherry King having been Grand Champions at the National Swine Show. These two purchases give the foundation for as great herd of Durocs as there is anywhere, there being no better blood lines and no better individuals in the world than the great sires named.

South Carolina has 10 co-operative canneries that are being operated on the old-fashioned corn mill plan.

In 1914 about 30,000 bushels of potatoes were bought from other counties to feed the coal miners of Lawrence county, Kentucky; last season 20,000 bushels were sold outside the

USED IN ONE FAMILY FOR YEARS

Bellepoint, W. Va.—"It affords me great pleasure to have the privilege to make public this statement in behalf of Dr. Pierce's medicines I cannot recommend them too highly to the public. We have used them in our family for years and have reaped good results. We have always found the 'Golden Medical Discovery' superior to any other tonic, as it is a wonderful system builder. I can cheerfully recommend it to all like sufferers."—E. J. CARPER.

JAPAN TO MODIFY KOREAN RULE.

So Predicts Dr. S. E. Hager, 25 Years a Southern Methodist Missionary in The Orient.

Nashville, Tenn.—That Japan will moderate her rule in Korea is the prediction of Dr. S. T. Hager, recently returned missionary of the Methodist Episcopal Church, South. Dr. Hager has spent more than a quarter of a century in Japan doing religious work. "Japan is learning that her success in giving good government to Korea is fraught with difficulties, and that tolerance and good will must take the place of harsh and severe methods. "The military leaders aim mainly at making their rule thorough and permanent, and naturally there is great temptation to the man of the sword to make his rule severe. "But democratic ideas are growing in Japan, and more temperate treat-

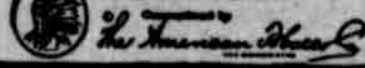

"Swat the Fly" Campaign Being Waged by Agents

County Home demonstration agents in Tennessee are waging a "Swat the Fly" campaign this month and they are creating considerable interest in the eradication of the pest in all sections. Letters are being sent individuals, slides shown at community meetings, and talks made in schools. Services of physicians, health nurses, women's clubs and other organizations have been enrolled in the drive and it is believed that cleaner, more comfortable healthful homes will result because of more screened homes and fewer flies.

Carey BOARD

WALLS CEILINGS PARTITIONS

YOU do not have to wait till the plasterer says he can come—when you use Carey Board.

The carpenter on the job can apply it or you can put it on yourself if you have to.

There is no muss, no freezing, no dampness to worry about, no finishing coat to come later, no ghostly white walls that call for paper-hanging expense.

Carey Board is made of wood fibre strongly built up in three plies and cemented with asphalt which makes it absolutely water-proof. It is finished in a cheerful buff color that will take decoration but does not require it.

Use it in place of plaster.

This Bank Has Grown

The Somerville Bank & Trust Company is next to the youngest bank in the county, started business eleven years ago with a paid capital of \$10,000 and has increased that paid capital to \$25,000 without the stockholders paying any more money, the \$15,000 additional capital being taken from the accumulated net earnings from time to time. The capital stock, \$25,000, is now fully paid, making this the second largest bank in the county. On the progressive and business-like plan which has made this growth possible, we invite the business of Fayette county people.
